

From the Principal Desk

*"Plant beautiful thoughts in your mind
to create beauty in life."*

Our thoughts have a great impact in our life. You think you are beautiful and you are.....Let us welcome every day with beautiful thinking and self-confidence.

There are two things to aim at in life. First to get what you want and after that to enjoy it. Only the wisest of mankind achieve the second. Let us enjoy our achievements to be beautiful and vibrant in life.

CHRIST ACADEMY was blessed to have a vibrant personality in Fr. Naiju, the former director whose hard work and toil, the Christites enjoy today. Yes the CHRISTITES owe to you dear Fr. Naiju, Because of you we have learned to see the good in people and more importantly to see the best within ourselves. We come to you with a mindful acknowledgment of all that you are. May the Lord be your GUIDE.

Let us make our world more beautiful. May God bless you all.....

Change your thought : Be the Motivation not the distraction

We humans tend to face many obstacles in our life. These very obstacles shape us into the person we ultimately become. We may even give them the name of experience. Norman Vincent Peale, the American minister and author said “change your thoughts and you can change your world”. Our thoughts tend to stay within our belief system. These beliefs are ingrained in our mind from an early age which are given to us either by our family or the society we live in. They are not true necessarily in all the cases. We think we are afraid of something, so we are afraid. It really is a matter of our thinking. You can't change what's going around you until you start changing what's going on within you. The quality of our thoughts directly impacts the quality of life we live. Our mind is a tool which when left unchecked becomes negative and cynical. What you think about you bring about. If you are constantly thinking about the bad stuff in your life or your negative experiences you won't be able to acknowledge the things which are positive in your life. You are your own problem since you are the one letting the bad thoughts dominate your life. But that also means you are the solution. Pay close attention to your thoughts, if you notice a negative self-belief or thought, stop and consider the alternative. If you want to change your circumstances rather than dwelling on why and how this happened, find solutions to your problems. Be inspired, take charge of your life and be happy. In Christ Academy we try to teach our students this very same thing and make them believe that they are the master of their life.

In the light of the above positive outlook on life and it's problems, I would like to thank Rev. Father Najju for always being a beacon of life for us when times were hard and for always inspiring us to do right by our school and our students. You are a source of great inspiration for us all.

ADIEU.....

At very first sight- it is very shocking news for all parents who are associated with Christ Academy - that one of the "Founding Member" and our most lovable person is leaving us.

Words are really not enough to say about him, but thereafter :

I want to share some good qualities which I personally experienced about him:

1. Dedicated towards goal
2. Never giving up to achieve the goal
3. Very strong Team Building abilities
4. Always thinking in positive way
5. Very good Leadership qualities
6. Innovative ideas to join people together
7. Respect & Response to each parent in Christ Campus

These qualities makes him different from other leaders.

I can say that it is all Father's dedication & leadership which makes the dream come true for "CHRIST ACADEMY"

He gave a perfect shape to this project.

only those parents can understand this fact who are associated since beginning of the school (when it was running under shed "(Poornodaya)"). I am proud to be one of them.

WE WISH YOU ALL THE BEST FOR YOUR NEXT CHALLENGES IN YOUR CAREER PATH...!!
