

CHRISTO FLASH

Vol-VIII Issue-2

OCTOBER 2018

PRINCIPAL'S DESK

Dear Christites,

Success is a word which sounds very sweet but it is a reality that requires real hard work to achieve. Hard work is the basis for everything worthwhile that you achieve in life.

If work is the process of applying your ability, hard work is applying your ability with focus and with such intensity to the exclusion of other possibilities. There is always a battle to be fought before the victory is won. However, to achieve your goal you have to put in hard and creative toil. Never accept defeat as final. There is no defeat as long as you refuse to give in.

When we look at the lives of the most outstanding personalities of the world, we find that it was hard work that made their life exemplary. When a girl begins work hard to reach her goal, she should concentrate only on her work leaving the thought whether she will attain her goal or not.

The same goes for the boys too.

My dear students, it is up to you to make your life a successful by realising the strength within yourselves. We are with you as you take each of your steps, only you have to walk on the path. What appears impossible today becomes a reality tomorrow with your determination, dedication and hard work. You are the masters of your destiny and captains of your soul.

Sr. Jancy Varghese
Principal

CHRIST SCHOOL BHOPAL

I believe that hard work and dedication always lead to success. Many people put the concept of hard work and dedication into the same category. I, however, think that they are very different from each other, but if put together, they can lead one to a successful life. Nothing in life is very easy and you have to work hard for what you want to achieve. Dedication is the key to success and hard work is the means. Without dedication to something, you will never succeed.

Gary Player says, “The harder you work the luckier you get”. There is no substitute to hard work. Hard work is the first prerequisite to be successful, whatever your sphere of action may be. All great achievers such as Newton, Da Vinci, Lincoln, Einstein, Edison, Mahatma Gandhi and Dr. Abdul Kalam worked very patiently and with perseverance in their chosen fields. Success was a blessing in response to their dedication to their hard work.

In order to achieve success, pursue it through **HARD WORK**. Depend on hard work; success surely comes to those who work hard and untiringly with dedication and without losing enthusiasm.

Ms. Mousami

COUNSELLOR'S COUNSEL....

A school counsellor works with students and parents to guide the students' academic, behavioural and social growth.

School counsellors provide counselling programs in three critical areas: academic, personal/social, and professional. Their services and programs help students resolve emotional, social or behavioural problems and help them develop a clearer focus and sense of direction. Effective counselling programs are important to the school climate and they are a crucial component contributing to the growth of the students.

The most common issue of students today is slow- learning. A slow learner is a child who learns at a pace that is a little behind others of their age and grade. Slow learners are not always learning- disabled, and may have normal lives outside of the classroom. However, academic subjects are a challenge for them. To help slow learners, the school employs a variety of approaches. The teachers give extra support to such students inside and outside the classroom. Most importantly, the teachers encourage them by working with them patiently and by celebrating their success with an extra accent.

They employ methods like:

1. Repetition of each learning point more than you normally would
2. Use of audio visual aids
3. Use of real life examples while teaching maths and other subjects
4. Praise given to the child at every opportunity
5. A shift in the process of making learning fun and comfortable.

School counsellors help students deal with their personal problems. These problems usually are family related, social problems or related to their struggles in learning.

Your counsellor is there for you whenever you need them. The counsellor wants to help the students in the best way possible. They are patient, confident, trustful and resourceful. My goal as a counsellor is to make sure that the students feel safe. I also help them with what they need, make sure they still have fun, listen to what they say and guide them in the direction of success.

Ms. Ann R. Thomas

INVESTITURE CEREMONY - KINDERGARTEN 2018-19

Investiture denotes a ceremony at which an honour or rank is formally conferred on a particular person. The investiture ceremony of Christ Kindergarten for the academic year 2018-2019 was held on 9 August 2018, in the gracious presence of Rev. Fr. Mathew George, Director, Christ school, Rev. Sr. Jancy Varghese, Principal, Christ School. The ceremony was initiated with a prayer song. God's blessings that are inevitable to crown any of our efforts with success were prayed for while the dignitaries lighted the lamp. Ms. Mousami, the Co-ordinator of Kindergarten, administered the oath of office to the kindergarten cabinet of students. The members of the cabinet were congratulated and honoured by Rev. Fr. Mathew George, Rev. Sr. Jancy Varghese and Ms. Vilsy with sashes, badges and flowers.

Master Arnav Singh and Miss Saanvi Maheshveri were invested with the responsibility of Head Boy and Head Girl respectively. The ceremony came to a close and the national anthem was sung. It was a memorable day for Christ Kindergarten. Best wishes to all the student leaders.

TEACHERS' DAY CELEBRATION

Teachers' Day was celebrated with great pomp and gaiety at Christ School on 5 September. Floral welcome was given to the Director, Principal and to all the beloved teachers. Rev. Fr. Mathew, Director, Rev. Sr. Jancy, Principal and all the teachers gave a floral tribute to Dr. Sarvepalli Radha Krishnan, a philosopher, a scholar and a teacher in whose memory the Teachers' Day is celebrated. The program started with a prayer service. To honor all their teachers who had been instrumental in shaping their lives, the students put up a spectacular show consisting of foot tapping songs, groovy dances and a skit that gave a great moral lesson. Games were organized for the teachers. Ms. Vilsy proposed a vote of thanks. On behalf of all the teachers she thanked all the students for their love that was presented in their wonderful performance. She also thanked our dear Director and Principal for facilitating a wonderful program in honour of the teachers. All the teachers were filled with joy as their students organised a programme solely for them.

DIRECTOR'S DAY

“Happiness Is A Moment Of Celebration And Togetherness”. The Christ Family celebrated the feast of our Director, Rev. Fr. Mathew George on 19 September 2018. The preparations were made well in advance. The staff and the students were excited to welcome the day. The whole school was decorated beautifully which had set the tone for the celebration.

We began the day with a short prayer service thanking God for blessing us with the love and guidance of a vibrant personality like Rev. Fr. Mathew, Director, Christ School. A variety of beautiful programmes were put together both by the staff and students alike. Students from every class staged their special performances to express their love for Rev. Fr. Mathew.

The cultural programme began with the welcoming of the Guests by the members of the School Cabinet and teacher representatives. The presence of Rev. Fr. Peter, the Manager, Rev. Fr. Rinto, the Assistant Director and Rev. Fr. John, the Spiritual Guide added colours to the celebration.

A beautiful prayer dance gave an auspicious start to the cultural programme. Students and teachers greeted Rev. Fr. Mathew, singing a melodious wishing song. A cake specially made for the occasion, was cut by Rev. Fr. Mathew to celebrate and sweeten the occasion. The Christ family gifted him with saplings as a mark of love and gratitude. Rev. Sr. Jancy, our Principal addressed the gathering. She greeted and thanked Rev. Fr. Mathew for being a pillar of strength and support to the school. An array of cultural programmes followed, which entertained and enthralled the audience. The Bharatnatyam performance by the students was the attraction of the day and it left everyone spellbound. The special North Eastern dance created an ambience of the North Eastern states of India. The Bachchon Ki Adalat staged by the students had the key message of how smartphones can damage the parent-child relationship. The hilarious performances by the non-teaching staff which left everyone rolling on the floor with laughter requires a special mention. The cultural programmes were concluded with the vote of thanks proposed by our dear Sr. Theresa.

Sweets were distributed to all the students and the entire Christ family shared the delicious lunch prepared by our dear teachers themselves. We enjoyed the day and wished our dear Rev. Fr. Mathew a great year ahead.

INDEPENDENCE DAY

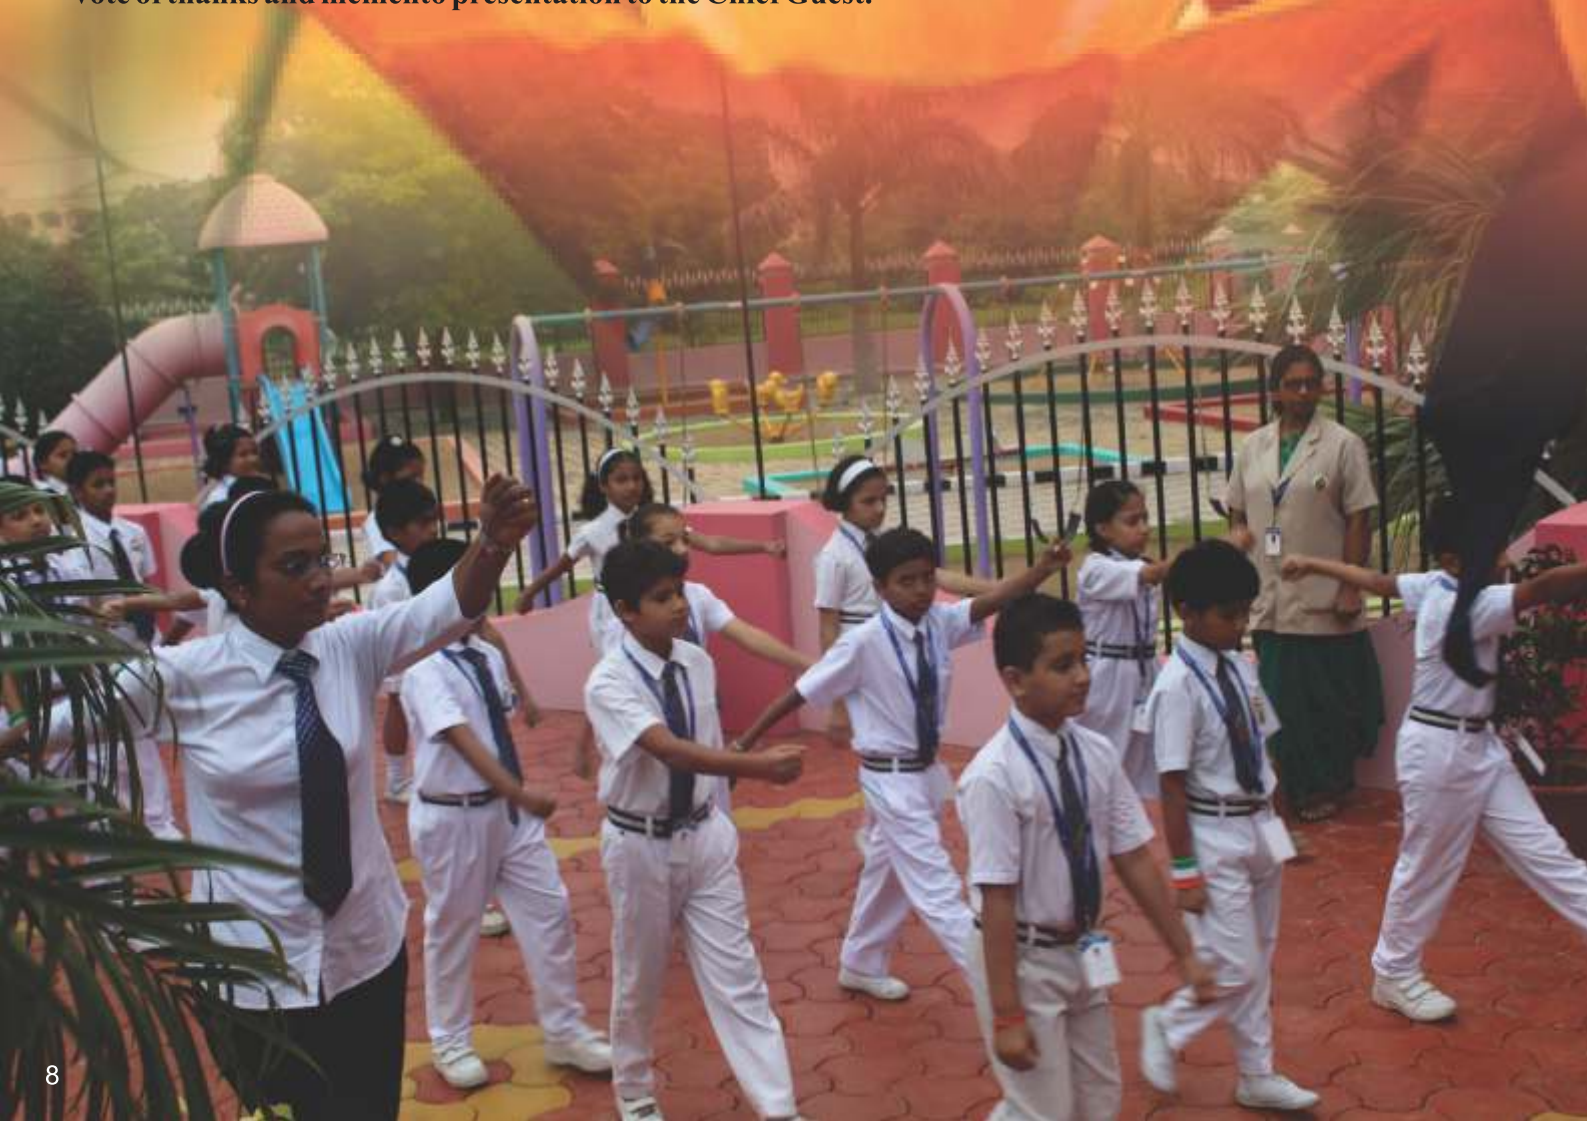

The 72nd Independence Day echoed with patriotic sentiments as slogans praising the motherland lingered the Christ School premises. In the morning, the students of Christ school marched out in a procession. The tricolor was unfurled by Rev. Bro. Sunny Lal, MMB Provincial, and the Chief Guest. Thereafter, the National Anthem was sung with devotion and love for the country. Floral welcome was given to the Chief Guest.

Melodious patriotic songs were presented by the school choir. The drama club staged a beautiful skit depicting the right sentiments of freedom struggle that highlighted the sacrifices that the

freedom fighters made. The dance performances that followed unfurled the colour and grace of the motherland.

The Chief Guest, in his speech, highlighted the supreme sacrifice of the great martyrs of freedom struggle who gave their lives for the sake of freedom. His gracious words evoked patriotism in the minds of both the students and the teachers. The programme left everyone spell bound. The ceremony came to an end with a vote of thanks and memento presentation to the Chief Guest.

COLOURS DAY

The Colours Day was celebrated very colourfully in the school. Orange radiated warmth and happiness, combining the physical energy in the stimulation of red with the cheerfulness of yellow. The children of Christ School celebrated Orange Day in August and Brown Day in September.

Brown is the colour of the earth, wood and stones. Shades of brown convey the concepts of earth-friendliness and all that is natural and pure. Colours trigger many memories and send us to the world of dreams. The message of the day invited the young minds to make life colourful.

THEMATIC DAY

“Winners never Quit, Quitters never win”. Blossom C performed their 'Thematic Day' on 'Sports' with the intention of making people aware of the importance of sports in life. The above mentioned saying teaches us to keep on trying until you achieve the goal. Sports teaches us character; it teaches us to play by rules, it teaches us to know what it feels like to win and lose, it teaches us about life. Christites made the thematic day more effective by enacting the role of different sports persons. Sports matter in life because participation in sports makes people better and teaches lessons of life that extends well beyond the playing field. It develops team-spirit and boosts self-esteem. It is also helpful to develop problem-solving skills. Sports can bring a positive attitude to your life. It inspires people to live a life by certain rules and regulation.

Blossom B focussed on the theme of freedom. The students moved in dance. Along with enjoyment of the celebration, the students not only learnt about the importance of freedom but also about team work, co-operation, hard work and unity.

It is also helpful to develop problem-solving skills. Sports can bring a positive attitude to your life. It inspires people to live a life by certain rules and regulation.

MOTIVATIONAL TRAINING FOR THE STUDENTS

“For those who don't believe in themselves, hard work is worthless” -Masashi Kishimoto

Motivation is defined as the process that initiates, guides and maintains goal-oriented behaviour. Motivation is what causes you to act, whether it is getting a glass of water to reduce thirst or reading a book to gain knowledge. A session was given to students from classes 4th to 6th on motivation. On the basis of the video clip about the little piper bird, the effort to make them understand the concept was accomplished. Students responded very well to the questions that were asked to them.

In the session it was explained that we should not be afraid to face challenges in life; without challenges life becomes dull and boring. One should believe in oneself and say “Yes I can” and then start working for it.

It is very easy to put up some excuses and run away from things but you will not be able to face your inner self and will always keep on running away

from things.

In the story, the little piper bird was afraid of the waves (as it got drowned once), so it stayed back home. But one day it was hungry and it decided to come out and get to the shore to eat. Again the sea brought waves and it ran, but this time it noticed the little crab protecting itself under the waves and the little bird imitated the crab. Next time when the waves came, it stayed and overcame its fear and was happy to find food-lots of it.

In the same way, in a student's life there are waves (like exams, public speaking, etc.) but he/she has to come out of the safe place and face them. Notice different people do such things and put effort from your side to achieve your goal. Once you are motivated, it is your duty to make efforts and achieve the goal. Motivate others when they feel low and work together in unity.

Ann R. Thomas

SPECIAL ASSEMBLY

It takes dedication and hard work to constantly improve yourself.

If success was free, everyone would have it. But there are only a few successful individuals on earth and each of them had put in enough productive work before they received anything in return. Dedication to what we do is very important. It is while working hard on what you believe in, you begin to understand its true value. The harder

you work on your dream, the more confident you become. Achievement is impossible without dedication. It is in order to achieve this goal, that class VI and IV expressed their feelings and their longing for dedication and hard work through a mime with a message.

“Use your strengths, your hard work and your dedication to reach every single one of your goals.

SPELL BEE

Spell Bee is a healthy competition held internally within the schools and externally with other schools. A spell bee does not only elicit the spirit of competition among our children but in the process, it encourages them to read more.

The students of Christ School participated in the State Level Spell Bee Competition, which was

held at Champion School, Bhopal, on 29 July 2018. Eleven Christites proved their proficiency by making their entry into the Grand Finale of the competition, which is to be held on 7 October 2018. We wish all the best to the contestants.

An oral round on an Inter School level was also held on the same day along with the “State Level Written Examination”. Six Christites secured a place in the Ranking Tally in the Inter School Round. All the rank holders received a medal and a certificate, while the first, second, third and the fourth rank holders from each category received a cash prize. Congratulations to all the winners!

ACTIVITY

WINNERS

Competitions offer a chance to the participants to gain substantial experience, showcase their skills, to analyse and

evaluate outcomes and to uncover personal aptitude. Here, in Christ School, three different competitions such as English Speech, Book Marking and Hindi Speech were organized in the month of August and September. Christites enthusiastically took part in these competitions and proved their talents. We congratulate all the students for their wonderful performance. Winners were recognised with the Certificate of Merit.

PROFICIENCY AWARD

“Exams might be stressful, but they improve learning.” Ideal assessment programs provide a balanced and fair evaluation of each student. In the month of August, Christ School conducted Assessment I. The teachers helped the students on hand in dealing with the exam stress. They motivated the students to work hard and made sure that they were confident to give their best during the exams. There were several revisions and tests before the assessment was done. As a result, the students performed very well in their exams and came out in flying colours. This achievement of the students is not just a matter of luck but the result of hard work and dedication. Christ School had adopted a positive method and the teachers had prepared the students according to it. In conclusion, it is fair to say “Success belongs only to those who are willing to work hard.”

ARTICLES

MY DEAR HARD WORK

Dear hard work...
I used to hate you...
When you called my name...
I heard and ran away from you...
When I knew you were coming...
I used to hide from you...
When others talked to me of you...
I made excuses to get away from you...
Afraid of the pain because I didn't want to get hurt...
Afraid to fail...
So I didn't even try...

Mahi Thakur-Grade IV- B

THE HEART THAT EVER BEATS

Ask the heart that always beats
Ask the brain that never sleeps
Ask the Sun that shines each day
And the stars every night they play
Ask a child who always crawls?
Learning to stand holding the walls
And the river that keeps flowing
The invisible wind that's always blowing
Giving us the perfect indication an example for deep dedication.

Arushi Gaikwad- Grade V

PRICE OF SUCCESS

Hard work is a price that we pay for success in life. The constant vigilance and preparedness to work is the price we pay for success in life. Work is a privilege and a pleasure, idleness is a luxury that no one can afford. Man is born to work and prosper in life.

Gunjan-Grade VI

HARD WORK- A KEY TO SUCCESS

Hard work is the most important key to achievement. Achievements without hard work are impossible. An idle person can never achieve anything. If one waits for a better opportunity, it never comes. The person who works hard is able to meet success and happiness in life. Nothing is easy to achieve in life without putting in real hard work.

Neeti Bokhare-Grade IV B

THE HIDDEN TREASURE

Once upon a time there was a very hard-working farmer. He had developed a vineyard that used to give a rich crop of grapes every year. He had three sons but none of them bothered to help their old father in his work. So, the farmer was worried about their future. One day, the farmer fell ill. He called his sons and said, "Dear sons, I perceive that my end is near and before die, I want to tell you that, in my vineyard, there lies a hidden treasure. Dig

it out after my death. Saying this, the old farmer died.

After performing the last rites of their father, the sons began digging the vineyard. They dug every inch of it but found nothing. But the digging led to such a rich crop as had never been seen before even when their father was alive.

The sons came to realize that the "hidden treasure" was their hard work.
